

# AUTOMATIC START/STOP & CHAIN PUSHER KIT FOR 80800 BAG CLOSING UNITS

## APPLICATION:

Retro-fit kit 29480WD converts a mechanical system into an automatic start stop unit including a thread chain pusher.

## OPERATION:

The operator loads the filled bag onto the conveyor and guides the top of the bag into the sewing area of the machine. As bag contacts the start/stop arm, the machine drive is activated and the bag is sewn closed. As the bag leaves the sewing head the spring loaded arm forces the thread chain into the existing mechanical knives for consistent, automatic trimming. The sewing head then stops.

This kit eliminates awkward foot pedal action and simplifies guiding the bag into the sewing head, effectively deskilling the bag closing operation. It also insures consistent, reliable closures and contributes to increased production.

## FEATURES & BENEFITS:

- Easily converts new or existing 80800 C or E or 80600 E heads to automatic run units.
- Can be used in conjunction with the GA-29905 X-I feed-in device.
- Thread chain is automatically cut.

**KIT NO.:** 29480WD (Voltage 120 to 600 VAC)
